

**Assure**Technical

## **Cyber and Information Security Consultant**

***Competitive Salary + company benefits***

***Permanent***

***Hybrid and flexible working options***

### ***About us***

Assure Technical are technical security experts. Since 2011, it has been our mission to help organisations effectively protect their information and assets; and our passion to provide outstanding service and value.

We're a dynamic business and an established IASME Cyber Essentials Certification Body with a diverse and growing client base.

We have created a culture that fosters a flexible environment where we can develop together – where each employee is given the autonomy, tools and training they need to succeed.

Key benefits of working for us include:

- Competitive salary
- Flexible and hybrid working options
- Annual personal development budget
- Air-conditioned workspace in the stunning Malvern Hills
- On-site canteen
- Regular team meetings and social events
- Private healthcare
- Wellbeing package, including discounted gym membership

### ***The role***

We're looking for a talented or aspiring cyber security professional to join our team.

This is a customer facing role with the following key responsibilities:

- conducting Cyber Essentials/Cyber Essentials PLUS/IASME Governance assessments.
- providing guidance and support to clients to help them achieve Cyber and Information Governance certifications and protect their businesses.
- Become a key member of our in-house Penetration Testing team.

**Assure**Technical

The successful candidate will be supported and encouraged to develop their skills within the realms of IT Security and Information Governance and the role has the potential to evolve.

### ***About you***

You are based in the UK and have 2-3 years' experience of working in IT/Cyber Security or similar technology based areas.

You are a certified Cyber Essentials Assessor; or you possess the experience or qualifications to gain this status.

You are highly motivated and positive, possessing excellent interpersonal skills which you use to deliver quality and success across whatever you do.

You have excellent verbal and written communication skills with the potential to speak authoritatively with clients about cyber security.

You act with integrity and have a pragmatic, solutions-based response to challenges.

### ***Essential skills & experience***

- 2-3 years' experience of working in IT/Cyber Security or technology based areas.
- Strong knowledge of the Cyber Essentials framework.
- Excellent understanding of current cyber risks.
- A willingness to learn and become an accomplished Cyber and Information Governance professional.

### ***Desirable skills & experience***

- Certified Cyber Essentials Assessor or the pre-requisite qualifications to become one.
- ISO27001 Lead Auditor or Implementor.
- Certified Cyber Essentials Plus Assessor or the pre-requisite qualifications to become one which would include achieving one of the following:
  - CREST Registered Penetration Tester
  - CREST Certified Infrastructure Tester
  - Cyber Scheme Team Member/Leader (CSTM or CSTL)
  - EC-Council Certified Security Analyst (ECSA): Penetration Testing practical
  - Offensive Security Certified Professional (OSCP)
  - TigerScheme Team Member/LEader (CTM/QSTM or CTL/QSTL)

Please note that relevant experience may be considered in lieu of qualifications.

**Assure**Technical

***Other things you should know***

Successful candidates who are not already a Certified Cyber Essentials Assessor and/or Cyber Essentials PLUS Assessor will be expected to obtain these qualifications, with our support, within their 6-month probationary period.

There may be a requirement for you to perform tasks on-site at the various customer locations across the UK and overseas as required.

***How to apply***

If you are interested in applying for the role, please get in touch.
